

Linh Hoang

Assessment 1

App name : Food-Maid

MVP feature list

- Types of desired Food (American, Chinese, Thai, etc.)
- Identify nearby restaurants based on location
- Delivery availability Yes/No
- Ability to sort Ratings, Price, delivery speeds

User stories

- As a <construction worker>, I want to <be able to find the best and quickest restaurant that delivers>, so that I can <focus on my crew and job>.
- As a <health fanatic>, I want <a food product that can filter out all the bad options >, so that I <don't have to spend too much time searching for the right place to eat>.
- As an <introvert who prefers to stay in>, I want <to see only options that deliver>, so that I <don't have to be uncomfortable having to pick up the food in person>.
- As a <sit down restaurant>, I want to <provide options for those who do not have time>, so that I can <service those that cannot physically come to the restaurant>.
